General Summary for Sunday, 29 May, 2022

British Mountain Summary:

Based on forecast chart for noon 29 May, 2022

Chilly northerly winds, mostly fairly light, will bring a few showers, of snow higher areas Scottish Highlands, but the risk of heavier showery rain to Wales - mainly South Wales. Patches of sun, although extensive cloud overall.

Headline for Brecon Beacons

Light wind; areas of showery rain. Chilly.

Detailed Forecast for Sunday, 29 May, 2022

How windy? (On the summits)	Northerly or variable, 10mph or less.
Effect of wind on you?	Negligible
How wet? (Precipitation and its impact)	Areas of showers, small chance lightning Patches of showery rain will drift across mid Wales and from about midday south Wales. Some of the rain will then become heavy, with hail and small risk thunder. As the rain drifts only slowly, total rain will vary, with some areas having little whilst
Cloud on the hills?	Intermittently forming on higher areas Varied cloud base, as banks of low cloud come and go, particularly morning east Wales and then during rain. In places patches below 450m. However, there will be periods when most or all summits clear.
Chance of cloud free summits?	50%
Sunshine? Air clarity (below cloud)	Sunshine at times, but overall extensive cloud. Later in afternoon sunshine will gradually extend inland from Cardigan Bay. The air very clear, but visibility poor in rain.
How Cold? (at 750m)	4C rising to 7C.
Freezing Level	Above the summits.

Brecon Beacons - Looking Ahead

	Monday 30 May	Tuesday 31 May
How windy? (On the summits)	Westerly mostly 15mph.	Westerly 15mph.
Effect of wind on you?	Small	Small.
How wet? (Precipitation and its impact)	Showers, mainly well inland Risk one or two showers morning. Showers may become more extensive afternoon, most likely east Wales.	Showers Isolated showers, although during the afternoon becoming dry most or all of west Wales. However, watch for the possibility of a band (a few miles wide) of showery rain east Wales.
Cloud on the hills?	Mostly very little Cloud base will rise above the summits a few hours after dawn, although fragments may return near showers.	Mostly clearing in the afternoon Overall, expect fog to cover higher areas in the morning, before gradually clearing most or all summits.
Chance of cloud free summits?	80%	70%
Sunshine? Air clarity (below cloud)	Patches of sunshine, particularly spreading gradually inland from Cardigan Bay through afternoon. Very good visibility.	Patches of sun morning. During the afternoon bright sunshine will extend inland from off Cardigan Bay. The air very clear.
How Cold? (at 750m)	4C.	7C
Freezing Level	Above the summits.	Above the summits

Planning Outlook**All mountain areas of Britain from Monday, 30 May, 2022**

Relatively low temperatures on the mountains until later in the week; particularly on the Scottish highlands where higher tops will frequently be near freezing point. Showers, some heavy and thundery, giving hail and on higher tops snow, will be widespread, particularly in the afternoons, when in some areas they will merge to give a few hours of precipitation with risk thunder. Signs of a few warmer drier days toward or into next weekend.
