## General Summary for Sunday, 1 September, 2024

### British Mountain Summary:

#### Based on forecast chart for noon 1 September, 2024

Mostly dry in Scotland, late afternoon showers possible in Southern Uplands and toward the evening in Southern Highlands. Unstable through England, with thundery rain here and there. Localised light showers in Snowdonia. Patchy sun for most, best Cairngorms and far north.

### Headline for Brecon Beacons

Mostly cloudy, light showers possible

## Detailed Forecast for Sunday, 1 September, 2024

<b>How windy? (On the summits)</b>	Easterly 20 to 25mph, easing to 15mph in the afternoon.
<b>Effect of wind on you?</b>	<b>Walking likely inconvenienced by the wind at times, especially in the morning.</b>
<b>How wet? (Precipitation and its impact)</b>	<b>Risk of light showers</b> Dry start, later light rain showers possible here and there, most likely around noon. Showers possible again in the evening.
<b>Cloud on the hills?</b>	<b>Extensive cloud, lifting slightly</b> Widespread cloud in the morning on high ground will lift above most summits but remain mostly overcast. Best breaks in western regions.
<b>Chance of cloud free summits?</b>	<b>20% becoming 70%</b>
<b>Sunshine? Air clarity (below cloud)</b>	Overcast morning, with some breaks in the afternoon. Hazy.
<b>How Cold? (at 750m)</b>	16C. Feeling humid.
<b>Freezing Level</b>	Above the summits.

**Brecon Beacons - Looking Ahead**

	<b>Monday 2 September</b>	<b>Tuesday 3 September</b>
<p><b>How windy? (On the summits)</b></p> <p><b>Effect of wind on you?</b></p>	<p>Forecast confidence still low: West to northwest, strengthening from 5 to perhaps 25mph.</p> <p><b>Impeding walking later in the day and bringing wind chill effect.</b></p>	<p>West to northwesterly, 15 to 25mph, perhaps 10mph or less on the Black Mountains.</p> <p><b>Fairly small.</b></p>
<p><b>How wet?</b> (Precipitation and its impact)</p>	<p><b>Frequent rain</b></p> <p>Risk of rain most of the day, heavy in places, chance of thunder; likely wettest near Cardigan Bay. Some uncertainty of detail.</p>	<p><b>Rain on and off, clearing later</b></p> <p>Spells of light rain, generally fading in the afternoon.</p>
<p><b>Cloud on the hills?</b></p> <p><b>Chance of cloud free summits?</b></p>	<p><b>Hills often covered</b></p> <p>Low clouds frequently covering higher areas, perhaps improving during the day.</p> <p><b>30%</b></p>	<p><b>Hills clearing early</b></p> <p>Low cloud covering hills in the morning, rising gradually, clearing the tops before noon.</p> <p><b>Soon becoming 80%</b></p>
<p><b>Sunshine?</b> Air clarity (below cloud)</p>	<p>Starting dull, little sunshine possible in the afternoon. Variable visibility, improving toward evening.</p>	<p>Mostly cloudy, but also brief spells of sunshine later in the day.</p>
<p><b>How Cold? (at 750m)</b></p> <p><b>Freezing Level</b></p>	<p>12 to 14C, dropping through the day.</p> <p>Above the summits.</p>	<p>10 to 12C</p> <p>Above the summits.</p>

**Planning Outlook**

**All mountain areas of Britain from Monday, 2 September, 2024**

Low confidence in the forecast for beginning of the next week. Monday is likely to be unsettled with rain or most, locally thundery. Localised showers continues into Tuesday, although conditions shall improve through Tuesday afternoon. Up to mid-week the temperature is likely cooler than over the weekend. Mid-week onward widely dry and often sunny with high pressure rebuilding during the second half of the week, bringing significantly warmer air. Such conditions may continue even into the following week.

**Forecast issued at 15:56 on Saturday, 31 August, 2024**

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
