Planning Outlook

All mountain areas of Britain from Thursday, 14 November, 2024

High pressure lasting until Friday, ending with a cold front coming from the northwest, what marks the end of fairly dry and mild period. On Saturday, the front will pass over Britain, reaching central England by the end of the day. bringing some rain to most hilly areas. Drastic cooling and big pressure drop behind the front. On Sunday and start of next week, in low pressure, frequent showers are expected, with snow on the hills, snowflakes even down to valleys and towns. In the Highlands snow may reach significant depths rapidly, meaning truly winter conditions fairly early in the season.

Forecast issued at 14:25 on Tuesday, 12 November, 2024
