How Cold? (at 750m)	Around 0C. Feeling near -10C directly in the wind.
Freezing Level	800m or just above. Patchy frost in valleys in morning.

Brecon Beacons - Looking Ahead

	Friday 13 November	Saturday 14 November
How windy? (On the summits)	Northerly turning northwesterly, 15mph or likely dropping less during the day.	Southerly between 15 and perhaps 20mph.
Effect of wind on you?	**Mostly small.**	**Fairly small.**
How wet? (Precipitation and its impact)	**Precipitation not expected**	**Risk isolated shower** Small risk of a drizzly shower SW Wales.
Cloud on the hills?	**None expected**	**Mostly confined to higher slopes** Risk Preseli and southern slopes Brecon Beacons of cloud above 450 to 650m at times. Elsewhere, patches some higher slopes, but hills often cloud free.
Chance of cloud free summits?	**Above 90%**	**70%**
Sunshine? Air clarity (below cloud)	Extensive sunshine. Visibility excellent.	Sunshine, perhaps extensive. Hazy westernmost areas; otherwise visibility excellent after fog some valleys morning.
How Cold? (at 750m)	Around 0C.	0C tending to rise toward 2C through day.
Freezing Level	Around 800m or just above, but frost widely in valleys in morning, in places all day inland out of sunlight.	700m rising above highest summits. Frost valleys morning.

Planning Outlook

All mountain areas of Britain from Friday, 13 November, 2026

The present extensively dry and often relatively windless weather will end over the next few days as low pressure envelopes Britain. Showery conditions (snow on higher areas) will arrive on western mountains (mainly W & NW Scotland) on Saturday, before the threat of widespread rain - or snow higher areas of the Highlands - on Sunday. There may also be upland gales (although as yet considerable uncertainty for Sunday). Next week, frequent precipitation, low cloud and bouts of upland gales.

Forecast issued at 7:40 on Thursday, 12 November, 2026

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2026.
