|  |  |
|--|--|
| <b>How windy? (On the Munros)</b>              | Westerly 15 to on higher tops sometimes 20mph.   |
| <b>Effect of wind on you?</b>                  | Small.   |
| <b>How wet? (Precipitation and its impact)</b> | <b>Scattered showers. Some heavy, chance lightning, near/east of Braemar</b><br>Many places dry all day, but scattered showers from about midday, risk heavy with remote chance isolated thunder easternmost summits.. |
| <b>Cloud on the hills?</b>                     | <b>Clearing most, perhaps all summits</b><br>Patchy cloud higher slopes in morning, will generally lift to or above 1200m by midday.   |
| <b>Chance of cloud free Munros?</b>            | <b>By afternoon 80%</b>  |
| <b>Sunshine? Air clarity (below cloud)</b>     | Patchwork of sunshine, although cloud filling in at times from late morning.<br>Excellent visibility.  |
| <b>How Cold? (at 900m)</b>                     | 6C, rising to 12C  |
| <b>Freezing Level</b>                          | Above the summits  |

**Cairngorms NP and Monadhliath - Looking Ahead**

|   | <b>Sunday 28 July</b>                          | <b>Monday 29 July</b>   |
|---|--|---|
| <b>How windy? (On the Munros)</b>                 | South to southwesterly, 15 to 20mph.           | South to southwesterly 15 to 20mph.   |
| <b>Effect of wind on you?</b>                     | <b>Small.</b>                                  | <b>Fairly small.</b>  |
| <b>How wet?</b><br>(Precipitation and its impact) | <b>Rain very unlikely</b>                      | <b>Rain unlikely</b>  |
| <b>Cloud on the hills?</b>                        | <b>Very little indeed</b>                      | <b>Confined to higher tops</b><br><br>There may well be little or no cloud all day on the summits.<br>However, threat that the cloud base may be 1050m to 1200m (highest hills accessed north of Drumochter). |
| <b>Chance of cloud free Munros?</b>               | <b>90%</b>                                     | <b>60%</b>  |
| <b>Sunshine?</b><br>Air clarity (below cloud)     | Extensive sunshine.<br>Superb visibility.      | Patches of weak sunshine (often through high level cloud).<br>Excellent visibility.   |
| <b>How Cold? (at 900m)</b>                        | 6 to rising to a warm 13 to 15C mid afternoon. | 8C rising to a warm 14C.  |
| <b>Freezing Level</b>                             | Above the summits                              | Above the summits.  |

**Planning Outlook**

**All mountain areas of Britain from Sunday, 28 July, 2024**

Continued winds from the southwest will bring low cloud and occasional rain mainly to the NW Highlands. Otherwise largely or completely dry until around the middle of next week, with periods of sun and light wind - sometimes blustery NW Scotland.

**Forecast issued at 7:30 on Saturday, 27 July, 2024**

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
