

Lake District

The entire Lake District National Park, taking in all major summits, including Scafell, Helvellyn, Skiddaw, the Langdales and Old Man of Coniston.

Wheelwrights Cottages provide a wide range of self-catering accommodation around Langdale and beyond to suit all requirements. Please call us on 015394 37635 for details or go to www.wheelwrights.com

General Summary for Saturday, 27 July, 2024

British Mountain Summary:

Based on forecast chart for noon 27 July, 2024

The remains of a front will bring a mostly cloudy day with rain on and off southern. Scotland southwards, whilst further north only isolated showers. Winds light, except in the far north of Scotland, and temporarily in west Wales, where blustery.

Headline for Lake District

Mostly cloudy; showery rain, clearing evening

Detailed Forecast for Saturday, 27 July, 2024

How windy? (On the summits)	Southwest turning westerly, 10mph.
Effect of wind on you?	Often negligible.
How wet? (Precipitation and its impact)	Showery rain on and off; clearing toward evening Rain on and off morning - ranging from bursts of heavy rain, to lighter rain for perhaps an hour. Will fizzle out into the afternoon, completely so by late afternoon.
Cloud on the hills?	Generally extensive but nearly all clearing evening Very varied through the day and from place to place. In and after steadier rain, fragments on lower slopes and extensive above 500m. But at other times most confined above 750m. Markedly clearing at end of afternoon: only fragments if any remaining on highest tops.
Chance of cloud free summits?	20%; rising to 80% evening
Sunshine? Air clarity (below cloud)	Sunshine rare, before bright sun to end the day. Visibility mostly good, although poor in rain, excellent evening.
How Cold? (at 750m)	10C
Freezing Level	Above the summits

Lake District - Looking Ahead

	Sunday 28 July	Monday 29 July
How windy? (On the summits)	Southerly, 10 to 15mph.	Southerly 20mph. Perhaps sometimes 25mph westernmost fells.
Effect of wind on you?	Mostly negligible.	Fairly small.
How wet? (Precipitation and its impact)	Rain very unlikely	Rain very unlikely
Cloud on the hills?	Very little indeed	Very little if any
Chance of cloud free summits?	90%	90%
Sunshine? Air clarity (below cloud)	Extensive sunshine. Excellent or perhaps in afternoon superb visibility.	Sunshine, although often weak (due to high level cloud). Excellent visibility.
How Cold? (at 750m)	11C, rising away from fells nearest the coast to a warm 17C mid afternoon.	11C near the coast, but in afternoon as high as a warm 15C eastern summits.
Freezing Level	Above the summits	Above the summits.

Planning Outlook**All mountain areas of Britain from Sunday, 28 July, 2024**

Continued winds from the southwest will bring low cloud and occasional rain mainly to the NW Highlands. Otherwise largely or completely dry until around the middle of next week, with periods of sun and light wind - sometimes blustery NW Scotland.

Forecast issued at 7:30 on Saturday, 27 July, 2024
