Lake District - Looking Ahead

	Friday 4 October	Saturday 5 October
How windy? (On the summits) Effect of wind on you?	Southerly, 20 to 30mph. Blustery, walking impeded, balance and stability affected on exposed ridges. Marked wind chill.	Southwest to southeasterly, starting 25mph, strengthening to 35-40mph, near western coast possible 45mph. Walking becoming arduous, balance and stability increasingly affected. Significant wind chill.
How wet? (Precipitation and its impact)	No rain expected Risk of rain very low.	Most of daytime dry A few spots of rain possible in the morning. Soon becoming dry, in the evening widespread rain moving in from the west.
Cloud on the hills? Chance of cloud free summits?	Fog/low cloud in south, elsewhere clear In southern Lakes fog or very low cloud in the morning, higher fells likely above the cloud. In the north hills most likely cloud-free. 70%	Partly covered In the morning fog patches in some valleys. Later cloud shrouding the tops at times, lower slopes mostly clear. 60%
Sunshine? Air clarity (below cloud)	Low fells around Kendal may be under the cloud at start, except for that sunny. Afternoon slowly getting cloudier from the west. Excellent visibility.	Mostly cloudy, glimpses of sun toward High Street. Moderate to good visibility.
How Cold? (at 750m) Freezing Level	6 to 8C, feeling around -5C in wind. Above the summits.	Around 8C. Wind chill may reduce the perceived temperature to -5C. Above the summits.

Planning Outlook

All mountain areas of Britain from Friday, 4 October, 2024

On Friday in western Scotland deteriorating conditions, beware of upland gales in the Highlands. Lowering pressure and southwesterly winds toward the weekend bring an unsettled spell- rain at times, briefly milder air. Gradually cooling through next week, with spells of showery rain. On Thursday most likely widespread moderate to heavy rain, fairly persistent most mountains. Toward the weekend improving conditions, Saturday and Sunday probably dry and sunny.

Forecast issued at 16:14 on Wednesday, 2 October, 2024

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
