

# Lake District

The entire Lake District National Park, taking in all major summits, including Scafell, Helvellyn, Skiddaw, the Langdales and Old Man of Conistone.

**Wheelwrights Cottages provide a wide range of self-catering accommodation around Langdale and beyond to suit all requirements. Please call us on 015394 37635 for details or go to [www.wheelwrights.com](http://www.wheelwrights.com)**

## General Summary for Tuesday, 19 August, 2025

### British Mountain Summary:

#### Based on forecast chart for noon 19 August, 2025

A cooler feeling day with a rather gusty east to north-east airflow. An extensive cloud sheet, with local drizzle, covering many hills from dawn, but some westernmost hills still clear. Low cloud will burn back to eastern and northern hills, with sun most widely in the west, but low cloud persisting for parts of coastal western Scotland.

### Headline for Lake District

Breezy and feeling cooler. Cloud sheet covering fell tops, best breaks in west.

## Detailed Forecast for Tuesday, 19 August, 2025

<b>How windy? (On the summits)</b>	Easterly 15 to 20mph, but gusty 25-30mph around some higher fells and through elevated passes.
<b>Effect of wind on you?</b>	<b>Noticeably breezy and feeling cool in exposure, gusts may affect comfortable walking and balance on ridges.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Rain not expected</b> Chance an isolated pocket of drizzle around cloud banks in northeast Lakes - soon dry.
<b>Cloud on the hills?</b>	<b>Cloud sheet covering tops, best breaks in west.</b> Cloud sheet drifting over higher slopes in the morning, most widely north and northeast areas Skiddaw to Helvellyn and High Street groups. Tending to lift, thin with time, with best cloud breaks in the west.
<b>Chance of cloud free summits?</b>	<b>40% east, 70% west.</b>
<b>Sunshine?</b> Air clarity (below cloud)	Cloud extensive, but sunny breaks best in the west and southwest. High cloud layers making the sun hazy. Visibility very good.
<b>How Cold? (at 750m)</b>	8 to 11C, warmest west, coolest northeastern tops where in cloud; lowering widely to 7C overnight.
<b>Freezing Level</b>	Above the summits

**All mountain areas of Britain from Wednesday, 20 August, 2025**

High pressure centred toward the northwest this week, before building overhead again toward weekend. East to northeasterly winds prevailing, gusty for periods, easing out later in week. Extensively dry with sunshine best in west, low cloud for periods northern and eastern mountains with occasional drizzle. Still very dry underfoot with significant fire risk. Turning cooler through midweek, mountain temperatures falling, chilly into the valleys and glens pre-dawn, risk slight frost in Highland glens. Fine weather likely next weekend too; will likely begin to break down from the west into the following week, but uncertainty on timings of such a transition.

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
