How Cold? (at 900m)	10 to 14C	8 to 12C
Freezing Level	Above the summits.	Above the summits.

Planning Outlook**All mountain areas of Britain from Saturday, 21 September, 2024**

High pressure conditions with a lot of sunshine, warm temperatures and calm winds continue until early next week in Scotland and northern England. In Wales and Peak District during the weekend heavy showery bursts of rain, possibly thunderstorms. On Monday clouds and brief rain in Scotland. Northern England mostly dry, Peaks and Wales still wet. On Tuesday most likely dry day, before a deep low pressure system arrives on Wednesday/Thursday, bringing strong cooling and a lot of rain to most British mountains. Toward next weekend probably cold and wet, with again some snow on high tops.

Forecast issued at 13:09 on Thursday, 19 September, 2024

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary.
