

Peak District

The southernmost Pennines, covering the entire Peak District National Park, also extending north to hills accessed from Hebden Bridge, and including the hills immediately north of Manchester.

Alpkit is a multi-activity outdoor and bike brand for enthusiasts and adventurers making technical equipment to help you enjoy the outdoors whatever the weather. Go Nice Places, Do Good Things.

General Summary for Wednesday, 15 September, 2021

British Mountain Summary:

Based on forecast chart for noon 15 September, 2021

Light wind across the country. However, in a fairly humid air mass - with a weak front reaching western Scotland - low cloud will be extensive at first although many summits will clear. Here and there showers, but rain on and off near Loch Linnhe and coastal NW Highlands.

Headline for Peak District

Light wind; risk of a shower. Low cloud clearing.

Detailed Forecast for Wednesday, 15 September, 2021

How windy? (On the summits)	Direction varied 10mph or less, although temporarily northerly 15mph post dawn.
Effect of wind on you?	Negligible
How wet? (Precipitation and its impact)	Risk isolated bursts of rain Very likely dry. However, risk of one or two showers.
Cloud on the hills?	Very little by late morning Patches of fog, from lower slopes up, after dawn, will lift to above the summits through the morning.
Chance of cloud free summits?	Almost certain by early afternoon
Sunshine? Air clarity (below cloud)	Patchwork of sunshine developing by midday. Good visibility although a haze.
Temperature (at 600m)	13C
And in the valleys	19 to 21C in the afternoon, coldest western dales in north Yorkshire.

Peak District - Looking Ahead

	Thursday 16 September	Friday 17 September
How windy? (On the summits)	Westerly 10mph.	Southerly between 10 and perhaps 20mph.
Effect of wind on you?	Negligible.	Small.
How wet? (Precipitation and its impact)	Rain not expected	Rain unlikely Low risk of the odd patch of rain reaching westernmost hills.
Cloud on the hills?	Little if any by mid or late morning Patches of fog, in places on lower slopes, mainly western areas after dawn will clear within a few hours.	Very little if any
Chance of cloud free summits?	90%	90%
Sunshine? Air clarity (below cloud)	Patchwork of sun developing. Excellent visibility by about midday.	Patchy sunshine. Good visibility although a haze.
Temperature (at 600m)	12C	14C
And in the valleys	Will reach around 21C in the afternoon.	Will rise to 19 to perhaps 22C in the afternoon.

Planning Outlook**All mountain areas of Britain from Thursday, 16 September, 2021**

On Friday, a weakening Atlantic front will bring in rain (mainly to the W & NW Highlands), and stronger winds to western mountains.

As yet detailed confidence not high for the weekend and early next week. There will be a build of pressure following Friday's rain to give substantially fine weather, but the remnants of fronts may still give one or two 'poor' periods, with low cloud and occasional rain.

Forecast issued at 7:29 on Wednesday, 15 September, 2021

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2021.
