Cloud on the hills?	Little if any A few fragments may form on higher lopes for a few hours from dawn.
Chance of cloud free summits?	Almost certain by late morning
Sunshine? Air clarity (below cloud)	Patchwork of sun before cloud gradually fills in through the middle of the day. Visibility excellent.
Temperature (at 600m)	4C rising to 8C.
And in the valleys	Around 5C in sheltered valleys at dawn, rising to 13 to 15C.

Peak District - Looking Ahead

	Monday 30 May	Tuesday 31 May
How windy? (On the summits)	Westerly mostly 15mph.	Westerly between 15mph.
Effect of wind on you?	Small	Small.
How wet? (Precipitation and its impact)	Showers developing Risk showers here and there from dawn. Showers may become more widespread, possibly heavy afternoon.	Areas showery, possibly thundery rain Confidence in detail low: A day of showers, perhaps widespread and merging into areas of thundery rain. May improve to only a few showers later in day.
Cloud on the hills?	Mostly very little Cloud base will rise above the summits a few hours after dawn, although fragments may return near showers.	Forming for periods in rain Cloud likely to come and go from higher area, forming in rain, locally also on lower slopes. Through afternoon, may largely or completely clear.
Chance of cloud free summits?	80%	60%
Sunshine? Air clarity (below cloud)	Patches of sunshine will tend to give way to occasional bursts of sun. Often excellent visibility but poor in rain.	Patches of sun here and there - perhaps widely sunny toward or through evening. The air very clear.
Temperature (at 600m)	6C.	7C
And in the valleys	3 to 5C post dawn with ground frost in some valleys and sheltered upland dips. Will reach 14 or 15C in the afternoon.	Will reach around 15C in the afternoon, albeit sudden drops in temperature toward only 11C in heavier rain.

Planning Outlook**All mountain areas of Britain from Monday, 30 May, 2022**

Relatively low temperatures on the mountains until later in the week; particularly on the Scottish highlands where higher tops will frequently be near freezing point. Showers, some heavy and thundery, giving hail and on higher tops snow, will be widespread, particularly in the afternoons, when in some areas they will merge to give a few hours of precipitation with risk thunder. Signs of a few warmer drier days toward or into next weekend.
