## General Summary for Friday, 24 June, 2022

### British Mountain Summary:

#### Based on forecast chart for noon 24 June, 2022

Localised showers in the morning, but many places will be dry for a few hours. Showers forming more widely by afternoon, some heavy with hail and thunder, but some places missing them completely. More constant rain moves into Wales later where southerly winds may touch gale force on tops. Quite warm and feeling humid.

### Headline for Peak District

Risk of thundery showers. Windier later.

## Detailed Forecast for Friday, 24 June, 2022

<b>How windy? (On the summits)</b>	Southerly or variable, 10 to 20mph or sometimes less. Tending to increase toward evening toward 30mph.
<b>Effect of wind on you?</b>	<b>Mostly small, but sudden gusts may form around bursts of rain.</b>
<b>How wet? (Precipitation and its impact)</b>	<b>Local thundery downpours for a time</b> Chance of bursts of rain locally from early morning, but forming mostly into middle of day, but hit and miss. Heavy showers bring a risk of hail and thunder. Some areas escaping drier. Many showers may clear away north during afternoon. Then further showers or later some persistent rain spreads from southwest during evening.
<b>Cloud on the hills?</b>	<b>Most cloud above hills</b> Prior to rain, many hills largely clear, apart from banks here and there from dawn. However, where rain develops, cloud banks forming across higher slopes.
<b>Chance of cloud free summits?</b>	<b>70%</b>
<b>Sunshine? Air clarity (below cloud)</b>	A mix of some strong sun and periods where high cloud may fill in. Visibility very good, slight haze forming, reducing if rain develops.
<b>Temperature (at 600m)</b>	13C rising to 16C, feeling humid.
<b>And in the valleys</b>	Warm from dawn, 13 to 16C, soon rising, reaching 22 to 25C.

## Peak District - Looking Ahead

	<b>Saturday 25 June</b>	<b>Sunday 26 June</b>
<b>How windy? (On the summits)</b> <b>Effect of wind on you?</b>	Southerly, 15 to 20mph, occasionally gusty 30mph in places during and prior to rain. <b>A breezy day on the hills, sometimes gusty which may impede walking on higher tops.</b>	Southerly 25 to 35mph. <b>Blustery all day, will impede comfortable walking across higher terrain, considerable buffeting around exposed edges.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Local showers forming, some heavy</b> Mainly dry in the morning. Increasing risk of showery bursts forming into the middle of the day onward, but locally hit and miss, with some areas staying more often dry. Chance of isolated thunder.	<b>Occasional showers</b> Scattered bursts of rain, may become locally frequent over an hour or more, but some areas more often dry through the day.
<b>Cloud on the hills?</b>  <b>Chance of cloud free summits?</b>	<b>Mostly above the hills</b>  A few patches around hills early morning, generally dispersing. Then most cloud above the hills. Brief patches around higher tops during and after showers.  <b>90%</b>	<b>Mostly above hills</b>  Most cloud above the hills by mid-morning, then patches only forming during or after showers.  <b>80%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Sunshine mostly morning before cloud builds and tends to fill in. Visibility often very good, but reduced where rain occurs.	Glimpses of sun, but mostly cloudy. Visibility mostly good, reduced around showers.
<b>Temperature (at 600m)</b>  <b>And in the valleys</b>	8C rising to 12C.  Cooler overall, starting around 8 to 10C, reaching 18 to 21C by afternoon.	8 to 12C.  7 to 9C at dawn, rising to 17 to 20C into afternoon.

**Planning Outlook****All mountain areas of Britain from Saturday, 25 June, 2022**

Unsettled for several days through the weekend into early next week as a slow-moving area of low pressure affects Britain. Conditions will vary day-to-day, locally escaping dry some days, but expect some areas of persistent rain mixed with heavy or sometimes thundery showers almost anywhere. Wind speed also varied, mostly south or southwesterly, strengthening at times, may reach gale force on the high tops into next week. Feeling warm where sunshine develops, but cool in cloud and rain. Cloud will come and go on the hills, but lowering extensively during rain.

**Forecast issued at 16:38 on Thursday, 23 June, 2022**

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2022.
