## General Summary for Thursday, 7 July, 2022

### British Mountain Summary:

#### Based on forecast chart for noon 7 July, 2022

Scotland: Low cloud extensive west/northwest Highlands with drizzle toward west coast; more widely developing western hills later. Cloud breaking up to sunshine in the east.

England and Wales: Low cloud and patchy drizzle mostly clearing to sunshine, but may linger some western hills.

### Headline for Peak District

Early low cloud clearing with warm and extensive sunshine developing.

## Detailed Forecast for Thursday, 7 July, 2022

<b>How windy? (On the summits)</b>	North or northwesterly 15mph.
<b>Effect of wind on you?</b>	Small
<b>How wet?</b> (Precipitation and its impact)	<b>Rain not expected</b>
<b>Cloud on the hills?</b>	<b>Very little by midday</b> Initially very varied: fog may well cover some areas from lower slopes upward, whilst other areas are cloud free. Will gradually improve, quickly above more eastern areas, but by about midday most or all areas cloud free.
<b>Chance of cloud free summits?</b>	<b>30% lifting to greater than 90%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Sunshine will break through extensively and haze thin to give visibility excellent.
<b>Temperature (at 600m)</b>	16C.
<b>And in the valleys</b>	20 to 24C in the afternoon, coldest westernmost areas.

## Peak District - Looking Ahead

	<b>Friday 8 July</b>	<b>Saturday 9 July</b>
<b>How windy? (On the summits)</b>	West to northwesterly 10 to 15mph, at times 20mph.	Northwesterly 15 to 20mph at first, then easing to 10mph or less.
<b>Effect of wind on you?</b>	<b>Mostly small</b>	<b>Soon becoming small</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Substantially or completely dry</b> Isolated spots of drizzle possible early morning. Otherwise dry.	<b>No rain expected</b>
<b>Cloud on the hills?</b>	<b>Early low cloud breaking and clearing.</b>  Early banks of low cloud across higher slopes will break up and widely clear through the morning.	<b>Hills soon clear</b>  Any early banks of low cloud will soon clear to leave the hills widely free of fog.
<b>Chance of cloud free summits?</b>	<b>70%</b>	<b>Lifting to 80%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Cloudy start, but patches of sun increasingly breaking through. Murky start, but visibility becoming good.	Sunshine becoming fairly widespread. Visibility becoming good or very good.
<b>Temperature (at 600m)</b>	16C	13 to 16C, warmest in the afternoon.
<b>And in the valleys</b>	22 to 24C	Lifting to 22 to 24C

**Planning Outlook****All mountain areas of Britain from Friday, 8 July, 2022**

Persistent high pressure off SW Britain will bring extensive dry weather to and through next weekend, although in western Scotland, with the wind off the sea, often cloudy and fronts may bring rain on Sunday.

On western mountains the cloud will bring persistent fog until Friday, even to lowest slopes near the coast. However, remaining murky toward west coast of Scotland with further drizzle at times.
