Planning Outlook**All mountain areas of Britain from Saturday, 15 March, 2025**

High pressure drifts over the country through the weekend and early next week, bringing largely dry conditions, rare brief light showers. Chilly, becoming slightly less cold than recent days, but frost overnight into valleys; during the daytimes the freezing level lifting onto higher slopes. A covering of recent snow on many higher mountain tops. Sunny spells, variable cloud, and very clear crisp air. Winds fairly light overall this weekend and Monday - becoming southeasterly, strengthening soonest in Wales early in the new week, then more widely windy toward midweek, with some showery rain developing. A risk of more widespread spells of rain and some hill snow later in the week.
