And in the valleys	Frost some valleys at dawn; temperatures rising to 12 to 14C in the afternoon.

Peak District - Looking Ahead

	Tuesday 6 May	Wednesday 7 May
How windy? (On the summits) Effect of wind on you?	Mostly northerly 10mph or less. Negligible	Northeasterly 10-15mph, increasing afternoon to 20mph, possibly 25mph by evening on exposed higher areas. Fairly small, but feeling increasingly chilly as the breeze freshens.
How wet? (Precipitation and its impact)	No rain	No rain
Cloud on the hills?	Not expected	Not expected
Chance of cloud free summits?	Practically certain	Above 90%
Sunshine? Air clarity (below cloud)	Extensive or unbroken sunshine. Excellent visibility, although slight haze, particularly morning.	Sun and high cloud, patchy fair-weather cloud filling in for a time afternoon. Visibility excellent.
Temperature (at 600m) And in the valleys	5C at dawn; rising as high as 12C afternoon. At dawn slight frost some valleys. Will rise to around 16C in the afternoon.	5C at dawn, rising to 11C afternoon, though eastern moors slightly cooler, later in the breeze feeling like 4C. Slight frost at dawn in valleys and some sheltered higher terrain. Rising to 14 to 16C afternoon.

Planning Outlook**All mountain areas of Britain from Tuesday, 6 May, 2025**

High pressure continues to reside over the British Isles during the week ahead, maintaining generally dry conditions, low risk of an isolated afternoon shower. Winds mostly light, direction variable. Chilly nights with frost in valleys and sheltered higher terrain. Becoming pleasantly warm into the afternoons. Sunshine and variable cloud, at times covering the sky, but generally above the mountain tops with excellent visibility. Very dry ground conditions almost everywhere, beware high risk of fire.

Forecast issued at 16:00 on Sunday, 4 May, 2025
