<b>Chance of cloud free summits?</b>	<b>70% rising above 90%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Occasional sun and mostly thin high cloud. May start misty, visibility becoming excellent.
<b>Temperature (at 600m)</b>	10C from dawn. Rising to 16C afternoon.
<b>And in the valleys</b>	8C or locally cooler in some sheltered spots at dawn, rising to 20 to 22C afternoon.

## Peak District - Looking Ahead

	Sunday 24 August	Monday 25 August
<b>How windy? (On the summits)</b>  <b>Effect of wind on you?</b>	Southerly or variable 10 to 15mph.  <b>Small</b>	Southerly, strengthening, 15-25mph, reaching 30mph on exposed high tops and near some edges. <b>Starting fairly small, but increasingly blustery, in places affecting comfortable walking where exposed.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Rain not expected</b>	<b>Rain not expected until night</b> Very likely dry all day. Into night, risk of rain developing from the southwest.
<b>Cloud on the hills?</b>           <b>Chance of cloud free summits?</b>	<b>Patchy cloud clearing</b>  Some cloud banks may cover western hills in the morning, but generally lifting above hills.           <b>90%</b>	<b>None expected</b>           <b>Above 90%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Sun and some high cloud. Visibility good, but slight haze.	Sunshine and some high cloud moving in. Visibility good, possible slight haze.
<b>Temperature (at 600m)</b>  <b>And in the valleys</b>	11C from dawn, rising to 17C afternoon.  9C at dawn, locally cooler in some spots if skies clear. Reaching 22C by afternoon.	14C rising to 18C. In the wind feeling like 5 to 10C.  13C at dawn, rising to 24C afternoon.

## Planning Outlook

## All mountain areas of Britain from Sunday, 24 August, 2025

High pressure drifts slowly east, whilst low pressure over the Atlantic encroaches nearer in the early part of the new week. Southeasterly winds increasing Sunday-Monday, soonest for western regions, becoming much windier by Monday in west, then more widely with time. Areas of rain and showery bursts increasingly widespread as the week progresses as low pressure then rotates slowly over Britain - day-to-day detail becomes very uncertain. Warmer and more humid for a time, then cooler later in week.

## Forecast issued at 16:30 on Friday, 22 August, 2025

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
