Temperature (at 600m)	3 rising to 6C
And in the valleys	Will reach around 11C in the afternoon.

Peak District - Looking Ahead

	Monday 9 March	Tuesday 10 March
How windy? (On the summits)	South to southwesterly 15mph.	South to southwesterly; 25 to perhaps 30mph.
Effect of wind on you?	Small	Likely to impede ease of walking on higher areas.
How wet? (Precipitation and its impact)	Patchy rain; very little in total Bursts, probably brief, of showery rain now and again. Some places may well stay dry, and total rainfall everywhere small.	Little or no rain Here and there a burst of rain, but total rainfall small or nil.
Cloud on the hills?	Very extensive - although cloud base rising, perhaps breaking. Very likely blanket of fog from lower slopes up from dawn. Cloud base will rise from late morning, and in afternoon, most cloud will be above 450 to possibly 550m and may possibly clear.	May well clear Cloud may well shroud higher slopes for a few hours, but very likely all above the summits before midday.
Chance of cloud free summits?	10% rising to 40%	70%
Sunshine? Air clarity (below cloud)	Widely dull and misty or murky morning. The cloud slowly breaking in places, perhaps substantially in some areas (most likely N Pennines) afternoon. However, may well remain very hazy.	Periods of sun. Very good or excellent visibility.
Temperature (at 600m)	6C	5C
And in the valleys	Will reach around 11C in afternoon.	Will reach 11 or 12C.

Planning Outlook

All mountain areas of Britain from Monday, 9 March, 2026

Increasingly wet and windy, particularly western mountains through next week. From Wednesday, bouts of upland severe or storm force winds will reach the Scottish Highlands and the gales periodically affecting other mountain areas later in the week. Freeze thaw cycles will occur on higher areas south from S Scotland whilst the Scottish Highlands experience infrequent thaw, with fresh snow sometimes reaching lower slopes, whilst extensive higher up.

Forecast issued at 7:42 on Sunday, 8 March, 2026

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2026.
