Freezing Level	Above the summits.

Snowdonia National Park - Looking Ahead

	Friday 18 September	Saturday 19 September
How windy? (On the summits) Effect of wind on you?	East to northeasterly, 20 to 30mph, risk locally 35mph; strongest winds not necessarily higher terrain. Very blustery in places at fairly low levels; suddenly very gusty through passes and to lower slopes near/west of major summits.	Easterly 25mph, but risk local gusts 35-40mph; strongest winds not confined to higher slopes. Very blustery across the hills; suddenly gusty to lower slopes near/west of major summits or ridges.
How wet? (Precipitation and its impact)	Rain not expected	Rain not expected
Cloud on the hills? Chance of cloud free summits?	Risk fog banks morning in east Risk of low level fog extensive across east & mid-Wales from dawn, and patches in some western valleys. This may lift into banks of low cloud on eastern slopes for a time, gradually thinning and breaking. Higher tops likely above fog. 80%	Fog banks clearing Banks of fog may cover some slopes for a few hours, mostly toward east, but likely to lift and break. West coastal hills may see very little 70%
Sunshine? Air clarity (below cloud)	Sunshine and patches of cloud. Visibility excellent on most tops, but fog banks may affect eastern hills from low levels up for a few hours, leaving low-level haze.	Mostly sunny toward west coast; eastern areas cloudier. Visibility good, slight haze.
How Cold? (at 900m) Freezing Level	Up to 12C near west coast, but some lower slopes cooler, particularly morning and in east, where if in fog only 7C. Above the summits.	Around 8C, rising a degree or so toward west; some lower and eastern slopes cooler in morning. Above the summits.

Planning Outlook

All mountain areas of Britain from Friday, 18 September, 2020

Commonly dry through the weekend into early next week as high pressure resides across northern Britain. Mostly light winds in Scotland, but gusty easterlies England & Wales into the weekend. Many mountains often clear, but areas of lingering low cloud will vary across Britain from day to day. Fairly warm by day overall, but cool in and around low cloud. Slight frost some nights, mainly Highland glens. Some low-level fog in mornings. A shift back to southwesterlies and frontal systems moving in from the Atlantic through next week.
