## General Summary for Sunday, 7 August, 2022

### British Mountain Summary:

#### Based on forecast chart for noon 7 August, 2022

Generally damp and murky across western Scotland, extensive fog from low elevations upward. Drizzly rain pushing northwards with lowering cloud bases. Largely dry eastern Highlands. Mostly dry northern England, some cloud banks on Lakeland tops. Widely breezy on hills. Sunny and warm for Wales and Peaks, lighter winds.

### Headline for Snowdonia National Park

Sunny. Moderate breeze. Beware sunburn.

## Detailed Forecast for Sunday, 7 August, 2022

|   |   |
|---|---|
| <b>How windy? (On the summits)</b>                | Westerly, 15 to 20mph, strongest on northernmost tops. Sometimes lower speeds mid-Wales.  |
| <b>Effect of wind on you?</b>                     | Fairly small, but breezy on some tops and may affect balance where exposed on higher ridges.  |
| <b>How wet?</b><br>(Precipitation and its impact) | No rain   |
| <b>Cloud on the hills?</b>                        | <b>Little if any</b><br>Rare patches around some coastal slopes early morning. Tops probably above the fragments, which will soon all disperse. |
| <b>Chance of cloud free summits?</b>              | <b>90%</b>  |
| <b>Sunshine?</b><br>Air clarity (below cloud)     | Sunshine and fair-weather cloud, which may cover the sky for a time inland then thinning.<br>Visibility very good.                              |
| <b>How Cold? (at 900m)</b>                        | 10C rising to 13C, locally warmer mid-Wales by afternoon.   |
| <b>Freezing Level</b>                             | Above the summits   |

| <b>Freezing Level</b>                             | Above the summits  | Above the summits  |

**Planning Outlook****All mountain areas of Britain from Monday, 8 August, 2022**

Southwesterly winds continue to influence Scotland. Rain or drizzle will be most frequent in the Northwest Highlands, where low cloud will often shroud coastal hills. Winds strengthening at times toward gale force on the tops, strongest later Tuesday. Further south and east across Scotland, it will be commonly dry with higher cloud bases, becoming warmer and more humid with time. High pressure extends across England and Wales, leading to a settled outlook for the week ahead here, generally dry with light winds, becoming increasingly warm or very warm, particularly in southern areas.

**Forecast issued at 16:00 on Saturday, 6 August, 2022**

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2022.
