Chance of cloud free summits?	90%	90%
Sunshine? Air clarity (below cloud)	Sunshine, although often weak (due to high level cloud). Excellent visibility.	Extensive sunshine. Mostly excellent visibility.
How Cold? (at 900m) Freezing Level	11C near the west coast, but by afternoon as high as 17C eastern summits. Above the summits.	11C, rising toward a very warm 17C. Above the summits.

Planning Outlook

All mountain areas of Britain from Monday, 29 July, 2024

Extensively fine, very warm and light wind until mid week, although cloudy with a little rain NW Scotland on Monday. Remaining warm with mostly light wind later in the week, but bursts of sometimes thundery rain increasingly likely - at this stage uncertain as to the areas most affected.

Forecast issued at 12:08 on Saturday, 27 July, 2024

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
