Slight frost sheltered valleys at dawn.	5C, rising through the afternoon. Warmest west/northwest of Yr Wyddfa/Snowdon. Feeling like -5C in direct wind.  Above the summits. Slight frost sheltered valleys at dawn.

## Planning Outlook

### All mountain areas of Britain from Saturday, 5 April, 2025

A high pressure center lingers over Britain next week. Extensively dry and sunny, possibly warm, some high cloud coming and going. Chilly mornings in valleys, slight frost and sometimes misty, though mists will soon clear for mostly cloud-free days. Occasional cloud banks may drift into eastern areas from the North Sea, staying on low to mid slopes. Generally light or calm winds across most areas. Later in the week, some indication of a westerly breeze into Scotland which will bring back cloud and some spots of drizzle.

### Forecast issued at 16:28 on Thursday, 3 April, 2025

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
