## General Summary for Thursday, 19 September, 2024

### British Mountain Summary:

**Based on forecast chart for noon 19 September, 2024**

Dry and bright sunshine for almost all British hills. Patches of valley fog in the morning, especially near the coast, lakes or rivers. Warm, temperature rising to over 20C in most valleys. Light winds, sometimes hardly any wind. Excellent visibility, especially toward the north.

### Headline for Southeastern Highlands

Dry, sunny & warm, valley fog in the morning

## Detailed Forecast for Thursday, 19 September, 2024

<b>How windy? (On the Munros)</b>	Easterly 10mph.
<b>Effect of wind on you?</b>	Negligible
<b>How wet? (Precipitation and its impact)</b>	Rain not expected
<b>Cloud on the hills?</b>	<b>Not expected, in the east morning valley fog</b> Patches on some lower slopes below (or well below) 500m in the morning, especially near and east of Glenshee and Ochils, most often in lochs and by the rivers. The mountains above the fog.
<b>Chance of cloud free Munros?</b>	<b>90%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Extensive or unbroken bright sunshine. Ribbons of fog some valleys and some lower slopes, manly morning. Excellent visibility.
<b>How Cold? (at 900m)</b>	14C; several degrees colder upland valleys and corries morning.
<b>Freezing Level</b>	Above the summits.

## Southeastern Highlands - Looking Ahead

	Friday 20 September	Saturday 21 September
<b>How windy? (On the Munros)</b>	Easterly 10mph or less; perhaps 15mph summits south of Perth.	Easterly, mostly 5 to 15mph, slowly strengthening to perhaps 20mph.
<b>Effect of wind on you?</b>	<b>Negligible</b>	<b>Small.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Rain not expected</b>	<b>No rain expected</b>
<b>Cloud on the hills?</b>	<b>Very little - may form eastern hills</b>  Fog valleys, extending onto slopes below about 400m. Lifting and dissipating during the day, perhaps east of A9, the top of the cloud later reaching 900m.	<b>Clear, perhaps except low slopes east</b>  Morning fog in glens, extending onto slopes below about 400m, thickest by lochs and near rivers. Will largely disperse during the morning, perhaps except easternmost Highlands where may lift a little but still cover low/mid slopes.
<b>Chance of cloud free Munros?</b>	<b>80%</b>	<b>80%, lowest easternmost hills</b>
<b>Sunshine?</b> Air clarity (below cloud)	Bright sunshine and superb visibility on the hills; fog and risk very low cloud morning in and above some valleys - most extensive east of th A9.	Sunny, excellent visibility, perhaps little hazy east of A9.
<b>How Cold? (at 900m)</b>	14C (Note much colder lower slopes and valleys morning and where in cloud).	10 to 13C
<b>Freezing Level</b>	Above the summits.	Above the summits.

## Planning Outlook

### All mountain areas of Britain from Friday, 20 September, 2024

High pressure conditions with a lot of sunshine, warm temperatures and calm winds will continue until early next week in Scotland and northern England. In Wales and Peak District from Friday onward mix of sun and clouds, with locally heavy showery bursts of rain, possibly isolated thunder.

Beginning of next week showers possible also northern England and parts of Scotland, although Highlands still mostly dry and sunny until mid next week. Then, weather conditions may deteriorate across all British mountains with cooling and strong winds, although further development uncertain.

### Forecast issued at 13:25 on Wednesday, 18 September, 2024

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
