## General Summary for Tuesday, 29 October, 2024

### British Mountain Summary:

**Based on forecast chart for noon 29 October, 2024**

Widespread low cloud, mostly dry except for western Scotland and local drizzle on hills near western coasts (Snowdonia, Lake District). Cloud breaking above eastern slopes, letting some sun through. Mostly light winds, breezier on Highlands, in the far north windy. Mild.

### Headline for Southeastern Highlands

Often dull in the west, sunnier east. Mostly dry, breezy

## Detailed Forecast for Tuesday, 29 October, 2024

<b>How windy? (On the Munros)</b>	West to southwesterly, 15 to 20mph, very locally gusts 30mph around highest summits.
<b>Effect of wind on you?</b>	Fairly small, but gusty on some slopes giving marked wind chill on higher terrain.
<b>How wet?</b> (Precipitation and its impact)	<b>Little or no rain</b> A little fine drizzle at times where in cloud west of the A9. Otherwise dry.
<b>Cloud on the hills?</b>	<b>Extensive, especially west</b> Covering mountains; west of A9 persistently from lower slopes upward. Further east slightly higher cloud base, but still below 700m. Here most likely breaks during the day.
<b>Chance of cloud free Munros?</b>	<b>40%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Mostly cloudy, but glimpses of sun, best east of the A9. Visibility good out of cloud, misty west.
<b>How Cold? (at 900m)</b>	7-9C. Feeling near freezing in exposure to wind.
<b>Freezing Level</b>	Above the summits

**Southeastern Highlands - Looking Ahead**

	<b>Wednesday 30 October</b>	<b>Thursday 31 October</b>
<b>How windy? (On the Munros)</b>	Southwesterly, strengthening from 10-20mph to 20-30mph in the evening.	Southwesterly, 45 to 60mph, gusts may reach 65-70mph.
<b>Effect of wind on you?</b>	<b>Small, locally becoming strenuous in the afternoon.</b>	<b>Difficult to severe conditions, movement on the hills hardly possible.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>No rain expected</b>	<b>Chance localised drizzle but mostly dry</b> Chance brief drizzle on westernmost hills, but most likely everywhere dry.
<b>Cloud on the hills?</b>	<b>Hills covered, breaks during the day</b>  Cloud at start in glens and on various higher levels, hills widely covered. During the day cloud thinning and breaking.	<b>Extensive, some tops possibly clear</b>  Toward the west very low cloud persistent most of the day, tops and slopes above 600-800m should stay above cloud at least parts of the day. In the east cloud higher, possible soon clearing glens, but covering hills from mid slopes upward.
<b>Chance of cloud free Munros?</b>	<b>40%</b>	<b>30%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Brief glimpses of sunshine especially in the east, but mostly cloudy.  Mostly poor visibility.	Very little or no sun in the west, elsewhere tops above the cloud, east of Glenshee sky may be generally clear. Excellent visibility if not in cloud.
<b>How Cold? (at 900m)</b>	6 to 9C. Wind reducing the feeling to near freezing in the afternoon.	10 to 12C. Significantly cooler lower down. Severe wind chill makes it feel like below freezing.
<b>Freezing Level</b>	Above the summits.	Above the summits.

**Planning Outlook**

**All mountain areas of Britain from Wednesday, 30 October, 2024**

West to southwesterlies prevail with high pressure extending across Britain for rest of the week, keeping dry conditions for most, although some rain may continue to affect northwest Scotland. Low cloud fairly widespread, some fog into valleys, with local inversion conditions developing. On Friday chillier northwesterly air is likely over the Highlands, dropping to freezing over higher Scottish mountains, some showers with snow - elsewhere dry and staying mild. Later back to west and southwesterlies, high pressure shows signs of keeping most of Britain dry until end of next week.

**Forecast issued at 16:11 on Monday, 28 October, 2024**

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary.
