How Cold? (at 900m)	Around 6C.	4 to 6C
Freezing Level	Above the summits.	Above the summits.

Planning Outlook**All mountain areas of Britain from Friday, 8 November, 2024**

Southerly flow with cloudy and damp weather continues until Sunday, when a cold front from the Atlantic will bring some rain. This passes quickly and will be followed by westerlies bringing more sun beginning of next week. From Monday onward high pressure centres over the UK, sunnier and warmer conditions with hardly any rain are expected until Thursday, when another front will bring some rain and again cooler air. Unclear for next weekend, but high pressure, dry conditions are most likely.

Forecast issued at 15:35 on Wednesday, 6 November, 2024
