### General Summary for Wednesday, 30 July, 2025

#### British Mountain Summary:

#### Based on forecast chart for noon 30 July, 2025

Generally cloudy conditions, covering some hill slopes in the morning, but breaking and lifting above many tops. Occasional sun breaking through, mainly in the east. In western Scotland, a weak front pushing in will lower the cloud over coastal hills and bring a little drizzle at times. Light winds overall.

#### Headline for Southeastern Highlands

Largely dry day, cloud lifting and breaking. Light-moderate breeze.

### Detailed Forecast for Wednesday, 30 July, 2025

<b>How windy? (On the Munros)</b>	Northwesterly 15-20mph early in day, turning westerly 10-15mph.
<b>Effect of wind on you?</b>	Mostly small
<b>How wet?</b> (Precipitation and its impact)	<b>Substantially dry, locally a shower</b> Most or all day dry. A rare drizzly shower passing eastwards. Locally chance of a heavier shower far eastern hills later. Toward dusk, risk of drizzly rain developing from the west.
<b>Cloud on the hills?</b>	<b>Patchy low cloud lifting and clearing</b> Varied low cloud mainly Loch Tay to Callander areas early morning, bases 700-900m, patchier banks east of the A9. Lifting to upper slopes and breaking into middle of day to leave most cloud above the hills afternoon.
<b>Chance of cloud free Munros?</b>	<b>40% rising to 90%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Patches of cloud and sun. Visibility good below/out of cloud, more widely very good with time.
<b>How Cold? (at 900m)</b>	10C rising to 13C afternoon.
<b>Freezing Level</b>	Above the summits

## Southeastern Highlands - Looking Ahead

	Thursday 31 July	Friday 1 August
<b>How windy? (On the Munros)</b>	Northwesterly 15 to 20mph, occasional 25mph highest tops.	Northwesterly 20 to 25mph, to 30mph higher tops, locally 35mph in east.
<b>Effect of wind on you?</b>	<b>Fairly small, but feeling cool on high tops.</b>	<b>Starting to affect comfortable walking and balance on some higher exposed tops and ridges. Considerable wind chill.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Occasional rain and showers</b> A little rain locally in the morning, mostly western areas, then scattered showers during afternoon, an odd heavier burst, focused later toward the east.	<b>Occasional showers</b> Mostly brief showers coming in from the northwest.
<b>Cloud on the hills?</b>	<b>Fairly extensive on higher areas</b>  Covering higher slopes fairly widely above 900-1100m, lower for a time in rain central highlands. Lifting above higher slopes occasionally afternoon. Ragged patches lowering in showers.	<b>Mostly higher tops, some breaks</b>  Banks of cloud mostly above 900-1000m in the morning, tending to lift and break above many higher slopes with time.
<b>Chance of cloud free Munros?</b>	<b>30%</b>	<b>60%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Rare bursts of sun. Visibility reduced in rain, later becoming very good.	Patches of sun. Visibility very good.
<b>How Cold? (at 900m)</b>  <b>Freezing Level</b>	8 to 11C. Feeling near to freezing in stronger wind on highest tops. Above the summits	6C rising to 9C. Feeling below freezing in wind, nearer -5C on higher tops at least in morning. Above the summits

## Planning Outlook

### All mountain areas of Britain from Thursday, 31 July, 2025

Westerly winds prevail in the extended outlook, with occasional fronts moving through - western mountains often shrouded in cloud, periods of rain and drizzle. Some showery bursts of rain further eastwards, particularly Thursday-Friday this week, but often smaller amounts of rain toward easternmost hills, and cloud bases often higher with breaks to eastern summits. Moderate breezes, sometimes more blustery - early next week looks windier for a time. Temperatures near average, though rather cool in Scotland late this week and again early next week. Ridges of higher pressure will build occasionally from the southwest for better windows of weather, particularly England & Wales.

### Forecast issued at 16:00 on Tuesday, 29 July, 2025

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland.
