General Summary for Saturday, 18 October, 2025

British Mountain Summary:

Based on forecast chart for noon 18 October, 2025

Breezy south-southeasterly winds, strongest and gustiest in west. Areas of low cloud on hill slopes and fog in some valleys from dawn. Cloud tends to rise and break, but persisting on some south-facing hills. Better northwards across the Highlands.

Headline for Southeastern Highlands

Becoming gustier. Low cloud most extensive morning.

Detailed Forecast for Saturday, 18 October, 2025

How windy? (On the Munros)	South to southeasterly, tending to increase 20 to 30mph, gusts stronger later in day. Increasing further into the night, gusty 35 to in places 40-45mph higher terrain.
Effect of wind on you?	Becoming more blustery, starting to feel noticeable on exposed terrain. Deteriorating with stronger winds into night.
How wet? (Precipitation and its impact)	Damp air some slopes Occasional fine drizzle where in cloud, mostly in east.
Cloud on the hills?	Fairly persistent, varied heights in morning Often covering hills, lowest and most extensive in morning, 500-700m, some upper slopes may be near top of layer. Breaks tending to gradually form afternoon around some slopes, base rising a little, mostly above 800-900m afternoon.
Chance of cloud free Munros?	30%
Sunshine? Air clarity (below cloud)	Mostly little if any sun, glimpses breaking through cloud at times, mainly afternoon. Rather hazy, improving visibility to become good afternoon.
How Cold? (at 900m)	3 or 4C, slight rise afternoon to 5C, but feeling near -5C in the wind on high tops.
Freezing Level	Above the summits

All mountain areas of Britain from Sunday, 19 October, 2025

A more unsettled outlook into next week as low pressure dominates with areas of rain and showers , which will vary locally day-to-day. Wind speeds will also vary, but some lulls. Potentially significantly colder later in the week with northerly winds, dropping below freezing on higher mountains, with snow showers especially Scottish Munros.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
