General Summary for Thursday, 6 November, 2025

British Mountain Summary:

Based on forecast chart for noon 6 November, 2025

Mild and damp southerly air - lowest cloud on south-facing hills. Morning rain and drizzle in the Highlands easing off, some rise of cloud base. Gusty in places, strongest wind western Scotland. England sees little more than patchy rain or drizzle, whilst Wales has some pulses of heavier rain moving up from the south.

Headline for Southeastern Highlands

Gusty in places. Rain / drizzle clears, low cloud across hills.

Detailed Forecast for Thursday, 6 November, 2025

How windy? (On the Munros)	Southerly 20 to 30mph, strongest gusts around higher tops and some elevated passes.
Effect of wind on you?	Blustery in places, gusts affecting ease of walking over some higher terrain. Feeling cool in exposure despite mild air.
How wet? (Precipitation and its impact)	Early rain and drizzly patches fade Rain and drizzle fairly widely from dawn into the morning, tending to ease, drizzle lingering over some slopes mainly central highlands. Becoming drier overall into afternoon. Some patchy rain returns from south by evening. Wet underfoot, streams in spate.
Cloud on the hills?	Extensive Within a humid atmosphere, cloud banks will cover hills widely, but to varying levels. Scope for some breaks to form mainly between cloud layers. Base generally rising afternoon.
Chance of cloud free Munros?	20%
Sunshine? Air clarity (below cloud)	Mostly overcast. Visibility rather hazy, and poor in drizzle.
How Cold? (at 900m)	8C. Feeling close to freezing directly in the wind.
Freezing Level	Above the summits

All mountain areas of Britain from Friday, 7 November, 2025

Further into next week, easterly winds are likely to develop for Scotland, bringing drier weather to the west, and potentially much colder with time. England & Wales may remain frequently wet under slow-moving low pressure.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
