General Summary for Tuesday, 6 October, 2026

British Mountain Summary:

Based on forecast chart for noon 6 October, 2026

Chilly in Scotland, blustery showers northwest with hail, snow on summits. Showers well-scattered elsewhere, regular sun breaks. Patchy rain, drizzle, and low cloud affect England and Wales most of the day; some areas of east Wales see windows of cloud breaks and good visibility.

Headline for Southeastern Highlands

A few showers west, some snow on tops, sunny breaks

Detailed Forecast for Tuesday, 6 October, 2026

How windy? (On the Munros)	West or northwesterly 15-20mph, easing to largely less than 15mph much of the day.
Effect of wind on you?	Fairly small.
How wet? (Precipitation and its impact)	Some local rain/showers, but most hills dry One or two brief showers west of A9, most likely afternoon. Some hail may be mixed in. Some risk of a broader area of rain just in the morning south of Loch Tay, this soon clearing.
Cloud on the hills?	Mostly clearing Patchy cloud at varied elevations in the morning, perhaps briefly more extensive south of Loch Tay, but soon largely lifting to just patches grazing summits, little remaining afternoon.
Chance of cloud free Munros?	80% by afternoon
Sunshine? Air clarity (below cloud)	Mostly sunny, some patchy fair-weather cloud. Very good visibility.
How Cold? (at 900m)	4 or 5C.
Freezing Level	Above the summits.

All mountain areas of Britain from Wednesday, 7 October, 2026

A brief colder period with the wind easing on Wednesday and Thursday with bright sun breaking out - some snow showers will affect high terrain in Scotland, some hail mixed in as well. Westerly wind returns as Thursday goes, bringing bands of rain, low cloud and strong upland winds across Britain. Saturday remains blustery and showery but with bright breaks forming, and then Sunday sees a more settled day as a small area of high pressure builds in from the south. The following week looked mixed with bands of rain coming and going, punctuated by regions of high pressure, but typically on the cloudy side. Generally mild temperatures.
