How Cold? (at 900m)	Very warm, rising to 16 to 18C.	14 to 16C; highest in the afternoon.
Freezing Level	Above the summits	Above the summits

Planning Outlook**All mountain areas of Britain from Friday, 23 July, 2021**

High pressure continues to influence Britain this week, maintaining generally dry, warm and sunny weather with light winds. A chance of isolated afternoon showers forming through midweek, mainly England & Wales. Valley temperatures regularly into the mid or upper 20s Celsius. Some fog banks around northern and eastern coasts. Easterly winds freshening on Friday for Wales and Pennines. Into the weekend, a greater risk of thundery rain developing, focused on southern areas with very little rain for Scotland. Eventually next week, some rain may come in from the Atlantic, but for now ground conditions will remain very dry, with a high fire risk.

Forecast issued at 15:19 on Wednesday, 21 July, 2021
