General Summary for Thursday, 10 October, 2024

British Mountain Summary:

Based on forecast chart for noon 10 October, 2024

Cold, on Munros below freezing. Widespread morning frost in the valleys, in Lakes and Snowdonia below freezing in the morning. Snow showers in the Highlands. Snow and rain mix toward the Borders and locally in Snowdonia. Elsewhere likely dry, often sunny, but in places windy through eastern UK.

Headline for Yorkshire Dales & North Pennines

Cold, windy, mostly dry, often sunny

Detailed Forecast for Thursday, 10 October, 2024

How windy? (On the summits)	Northerly turning northwesterly, 210 to 25mph most of the time, locally 30mph on highest peaks.
Effect of wind on you?	Mostly small, but in the morning blustery and affecting comfortable walking. Gusty on exposed tops.
How wet? (Precipitation and its impact)	Rare showers, as snow above 400m Most likely dry, rare showers eastern side of Pennines and perhaps near Cross Fell. Falling as snow above approx. 400-500m, in the afternoon everywhere as rain, but by then showers risk even smaller.
Cloud on the hills?	Hills widely clear Cloud above the hills. Perhaps lowering near showers.
Chance of cloud free summits?	90%
Sunshine? Air clarity (below cloud)	Frequent sunshine after cloudy start. Excellent visibility.
How Cold? (at 700m)	2 or 3C. Below freezing in the morning. Feeling much colder in wind.
And in the valleys	Near or below freezing in many valleys at start, rising to 7C.

Yorkshire Dales & North Pennines - Looking Ahead

	Friday 11 October	Saturday 12 October
How windy? (On the summits)	West to southwesterly, 15 to 25mph, locally 30mph possible.	Forecast uncertainty high: Variable, 15 to 25mph.
Effect of wind on you?	Fairly small most places, on high passes and exposed paths walking strenuous and marked wind chill.	
How wet? (Precipitation and its impact)	Rain unlikely An odd shower possible, but most likely dry.	Moderate rain especially afternoon Perhaps dry morning, later little breaks in rain.
Cloud on the hills?	Hills likely clear Locally cloud patches in the morning, soon dissipating.	Covered highest tops High tops covered in cloud, below 600m cloud-free. Toward the south also high tops clear.
Chance of cloud free summits?	80%	60%
Sunshine? Air clarity (below cloud)	Intermittent sun. Visibility excellent.	Partly sunny. Very good visibility.
How Cold? (at 700m)	Around 4C. Feeling near -5C in wind.	3 to 4C
And in the valleys	Near or below freezing in many valleys at start, rising to 8-10C.	4C in the morning rising to 10C

Planning Outlook**All mountain areas of Britain from Friday, 11 October, 2024**

Warm front passing on Friday brings briefly milder temperatures, gales and rain in western Highlands, before flow changes back to northerly for the weekend. Saturday frequently wet in Scotland, snow on the tops, rain lower down. High pressure meaning cool but sunny Sunday, still sunny on Monday but southerly winds increasingly strong on western hills. Warmer next week, any snow soon melting and probably a few dry but windy days in the start of the week. Conditions possibly deteriorating midweek.
