How windy? (On the summits)	Southerly 15 to on higher tops 20mph.
Effect of wind on you?	Small
How wet? (Precipitation and its impact)	Rain now and again Rain and drizzle on and off - mostly light and will amount to little in total.
Cloud on the hills?	All or nearly all fells persistently covered. Persistent fog most of region, but by afternoon perhaps a few breaks to 600m and here and there higher slopes briefly clearing or between cloud layers.
Chance of cloud free summits?	Less than 10%
Sunshine? Air clarity (below cloud)	Widely dull, misty or murky.
How Cold? (at 700m)	3C
And in the valleys	Reaching 6C in the afternoon.

Yorkshire Dales & North Pennines - Looking Ahead

	Monday 9 February	Tuesday 10 February
How windy? (On the summits)	South-easterly 15 to 25mph.	Southeasterly between 30 and 40mph; may ease toward 20mph during day
Effect of wind on you?	Mostly small	Walking increasingly arduous with height: here and there sudden gusts reaching lower slopes northwest of major summits. Significant wind chill.
How wet? (Precipitation and its impact)	Patches or spots of rain here and there Patches of rain, or just occasional spots, here and there. Amounts small, but nonetheless giving damp weather at times.	Rain on and off; probably clearing Rain and drizzle from dawn will tend to clear northwards, although timing uncertain.
Cloud on the hills?	Extensive Extensive low cloud shrouding the hills, down to 400 to 600m, generally highest northern Pennines. Highest bases westernmost hills in the Dales.	Most mountains persistently foggy; cloud base rising Initially fog above 300 to 450m, perhaps a little higher northern Pennines. Timing uncertain, but there may well be an improvement extending northwards with breaks to 600 or 700m.
Chance of cloud free summits?	10%	10%
Sunshine? Air clarity (below cloud)	Overcast. Widely misty and murky.	Widely dull and murky; probably improving from south to give a little sun and very good visibility.
How Cold? (at 700m)	3C	2 or 3C Will feel near -10C directly in the wind.
And in the valleys	Lifting to 5 or 6C	Will reach around 7C in the afternoon

Planning Outlook**All mountain areas of Britain from Monday, 9 February, 2026**

Little change over the next few days with continued foggy conditions over most mountains, and rain, or on higher mainly Scottish areas snow. Intermittently southeasterly winds approaching gale force.

Later in the week, progressively colder from the north with fresh snow on many mountains.
