General Summary for Tuesday, 3 November, 2026

British Mountain Summary:
Based on forecast chart for noon 3 November, 2026

Cloudy most mountains areas, the cloud extensively shrouding higher slopes particularly eastern mountains morning. Fairly sunny S & W Wales. Local spots of light rain. Light wind northern Scotland, easterly winds elsewhere, stronger over England & Wales.

Headline for Yorkshire Dales & North Pennines

Breezy, gusty; cloud across tops, breaks west.

Detailed Forecast for Tuesday, 3 November, 2026

How windy? (On the summits)	East to northeasterly 20 to 25mph, some gusty areas 30mph around higher Pennines, locally downslope to west.
Effect of wind on you?	**Starting to affect comfortable walking on exposed terrain and some more noticeable gustiness affecting balance. Feeling chilly.**
How wet? (Precipitation and its impact)	**Some drizzly rain** A little light rain or drizzle occasionally, mostly eastern side of the Pennines, patchier westwards.
Cloud on the hills?	**Most frequent north, breaks west** Cloud banks rolling across high terrain, the base mostly around 700m, or slightly lower in east for a time early in day. Good breaks form around the Three Peaks, but patches often cap higher North Pennines all day.
Chance of cloud free summits?	**30% north/east, to 60% western dales.**
Sunshine? Air clarity (below cloud)	Fairly cloudy, a little sun breaking through, mostly western dales. Visibility very good out of cloud.
How Cold? (at 700m)	3 to 5C, coolest North Pennines. Feeling nearer -5C directly in the wind.
And in the valleys	6C at dawn, up to 11C afternoon.

Yorkshire Dales & North Pennines - Looking Ahead

	Wednesday 4 November	Thursday 5 November
How windy? (On the summits) **Effect of wind on you?**	Easterly 20 to 30mph, locally varying, but gusty in places around higher tops and locally down western slopes. **Affecting ease of walking on exposed higher slopes, gusts affecting balance in places. Marked wind chill.**	Easterly 25 to 35mph, gusty in places around higher tops and locally downslope to west of major summits. **Affecting ease of walking on higher terrain, sudden buffeting in places including to some lower elevations; marked wind chill.**
How wet? (Precipitation and its impact)	**Occasional spots** A little light rain in the wind from time to time, mostly more eastern areas.	**A little rain east** Spots of rain and drizzle mostly eastern Pennines, perhaps locally a band of more frequent light rain for a time, but very little toward most western dales.
Cloud on the hills? **Chance of cloud free summits?**	**Varying on high tops** Banks of cloud likely to come and go above 700m, most often in eastern areas, well broken toward the west. **60%**	**Mostly higher tops north and east** Cloud banks drifting over higher slopes, more extensive in the morning and toward the north and eastern Pennines, base around 600-700m. More broken westwards and tending to clear more often with time. **50%**
Sunshine? Air clarity (below cloud)	Fairly cloudy, sun breaking through at times mostly toward west. Visibility very good.	Patchy sunshine best toward western dales. Visibility very good out of cloud.
How Cold? (at 700m) **And in the valleys**	4C. Feeling like -5C directly in the wind. 6C from dawn, rising to 9 to 11C afternoon, coolest in east.	3 or 4C. Feeling like -5 to -8C directly in the wind. 5C at dawn, rising to 9 or 10C afternoon.

Planning Outlook

All mountain areas of Britain from Wednesday, 4 November, 2026

High pressure persists toward the north this week, maintaining quiet weather conditions. Easterly winds prevail, strongest during midweek over England & Wales, tending to lessen toward the weekend; wind often lighter and variable toward northern Scotland. Largely dry, local light showers or drizzle mostly in the east. Variable amounts of cloud covering hills, some higher Scottish tops emerging above an inversion at times. Sunnier and clearer near to western coasts. Generally just above freezing over the mountains, but local pockets of frost in shelter and in glens; toward the weekend, high Scottish tops dip just below freezing.
